

## HOTEL ROOMMATES

This is a list of people [updated often] with information about people who would like to share a room at the conference hotel. Following the name and e-mail address of the participant, I have included preferences as provided about male or female roommates, non-smoking or smoking, and the number of roommates desired. Please contact one another directly about your arrangements. I strongly recommend that participants should make a reservation immediately to ensure that it is possible to get a room at the reduced conference rates. Please see related information in the "Lodging" link.
